Professional Summary

Highly-qualified Java Developer offering five years of progressive experience. Proficient at designing, developing and maintaining wide range of new and existing Java applications. Forward-thinking development professional bringing knowledge in Java, SQL, HTML, CSS, JavaScript and other programming languages.

Skills

- | | |
|--|--|
| <ul style="list-style-type: none">• Object Oriented analysis and design using common design patterns.• Profound insight of Java and JEE internals (Classloading, Memory Management, Transaction management etc)• Knowledge of Relational Databases, SQL and ORM technologies (JPA2, Hibernate)• Experience in the Spring Framework• Experience in developing web applications using web framework (GWT, Spring | <ul style="list-style-type: none">• Gwt, Spring Boot, Thymeleaf & Bootstrap• Maven, Gradle• Angular, GwtMaterialDesign for User interface• Apache tomcat• N-tier applications, webservices architectures, cloud data streaming with kafka• Java Design Patterns• Scrum Agile Methodology• Bash, JSON, YML• Jenkins, Jira, Gitlab for CI/CD• Good Linux administration• HTML, CSS, Java, JavaScript |
|--|--|

MVC, Laravel, Drupal 7&8)	• MySQL, PostgreSQL
• TDD	• Versioning Tools - Git
• Ansible, Kubernetes, Docker,	• CI - Jenkins, Puppet
Terraform, SonarQube	• Dockers & Kubernetes
	• DevOps, AWS. GCP

Work History

05/2020 to 01/2023	Java Developer (Java 11) ZoTech – Lanham, MD <ul style="list-style-type: none"> • Collaborated in team-based, Agile environment to accomplish objectives by deadlines. • Develop and deploy enterprise scale solutions in Java • Participated in requirements gathering and design development meetings. • Designed, developed and implemented web based applications on analyzed requirements and understanding of industry technical standards. • Worked with quality assurance team to set up scripts, test case and automation protocols. • Diagnosed and corrected errors within Java codes to allow integration and utilization of proprietary applications. • Adjusted design parameters to boost performance and incorporate new features. • Identity opportunities for improvement process and tool improvements.
01/2018 to 10/2019	Php Developer (Drupal 7 & 8) CAPEM – Douala - Cameroon <ul style="list-style-type: none"> • Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX and JSON coding. • Coded websites using HTML, CSS, JavaScript and jQuery languages. • Conducted testing and review of website design for responsiveness,

	<p>clarity and effectiveness.</p> <ul style="list-style-type: none"> • Oversaw back-end development using PHP to maintain website integrity, security and efficiency. • Discussed site and app requirements with clients to produce actionable development plans and budgets.
04/2014 to 11/2015	<p>Junior GWT Developer (Java 8)</p> <p>My developer workflow:</p> <p>--> Pick a new task online on Jira server planning board</p> <p>--> Read the task description and agree with the team master about the feature involved.</p> <p>--> Create a new git branch to work on.</p> <p>--> Launch eclipse</p> <p>--> Write the acceptance(cucumber/selenium) to validate the feature involved by the task</p> <p>--> Design and implemented the front-end of the functionality if needed.</p> <p>--> Implement the Unit test that will validate the Back-end of the functionality.</p> <p>--> Implement the back end code and run the related Unit test.</p> <p>--> Run the acceptance and ensure everything work well.</p> <p>--> Push code to Gitlab server for integration.</p> <p>--> The push launch a build on Jenkins(CI) that build and test the new feature.</p> <p>--> When Jenkins builds succeed, I mark the task as resolved on Jira and set the amount of time spend in from eclipse.</p> <p>--> I create a Merge request in Gitlab to ask the team master/reporter to validate my work(the new feature)</p> <p>--> The team master/reporter check the feature and decide if it is okay or not</p> <p>--> If it works well, the new feature is merged and I pick another task.</p>

Education _____

12/2022	No Degree: Full Stack Java Development Emonics Academics - Online
08/2018	Bachelor of Science: IT Project Management University of Douala - Douala - Cameroon

Certifications _____

- Certified GCP (Google Cloud Platform) - September 2022
- Certified DevOps Engineer - March 2023

Languages _____

French	English
<div></div>	<div></div>
Native or Bilingual	Full Professional
