Work Experience

Cloud Architect
LAO SARL - Douala
January 2021 to Present

Responsible for the design and the implementation of many cloud platform.

Sr. Java Full Stack Developer
Software AG - Saarbrücken
August 2009 to December 2020

I worked in different teams in both frontend and backend in the department responsible for the continuous development of the BPMN platform ARIS. The job started in the frontend with JAVA - SWING, then progressively moved to a full web app, using the modern technologies.

Education

Master's degree in Computer Information Systems
Universitaet des Saarlandes - Saarbrücken
July 2007 to July 2009
