Summary

Senior Full Stack Developer with both high-end coding skills and resourceful UI knowledge.
Passionate about utilizing cutting-edge technologies to meet user requirements expediently and accurately.
I focus on making my code scalable and always stick to the rules and language syntax, best practices.
Always trying to provide realistic estimates and best way solutions. Self-motivated, innovative, energetic with excellent communication, analytical, collaborating, mentoring, problem solving and troubleshooting skills.

Technical scope:

- Frontend Development: Vue.js/Nuxt.js, React/Next.js, JavaScript, TypeScript
- Backend Development: Java, Node.js/Express.js, Python, Golang, ASP.NET, PHP/Laravel-CodeIgnitor...
- Mobile App Development: ReactNative, Flutter, Swift, Java, ObjectiveC, Kotlin, SwiftUI
- Blockchain: Solidity, Rust, Web3.JS/Ethers.JS, Ethereum/BSC/Tron/Cardano/Polygon/Solana/Opensea

I constantly look for best practices to design websites in a more efficient, cooler ways, always incorporating the best standards and methodologies that will allow me to obtain the best quality as a result. It's important to me to build long-term relationships with clients, so I am primarily looking for long-term projects. I am flexible with my working hours and happy to work closely with any existing freelancers you work with.

Work experience

Senior Full-Stack | Angular Engineer   Jan 2022 - Dec 2022
Cloud Burst Australia

Participated in developing Aged Care Service and built Angular Frontend - CodeIgniter Backend.
https://dreams.cburst.com.au/

https://ams.alcolac.com.au/   Laravel/Vue Mix - MySQL
https://exxir.ourpose.com/   https://exxir.ourpose.com/admin   React, MongoDB, Node/GraphQL

Full-Stack Lead Developer   Nov 2019 - Nov 2021
Apixel IT support

Developed rich front-end interfaces for online applications and websites for large clients in industries including fintech, medical, insurance, and technology.

• Developed rich Front-end UIs and Well-structured Backend Code using React, React-Native, and Node for the Tax Service Department.
• Designed pixel-perfect UIs, DRY & Clean code, and reusable components from Figma Design, Wireframes, and Adobe Illustrator
• Intuitive, feedback-driven feature implementation in Javascript frameworks
• Implemented Redux to manage a large state, leverage predictable state updates through the use of dispatchers and reducers, and avoid unnecessary prop drilling to improve maintainability and scalability of front-end codebase
• Implemented React Native by leveraging its "out-of-the-box" compiler to architect a responsive, scalable, and cross-platform mobile application
• Integrated some AI parts(pytorch, keras, tensorflow), and some APIs and endpoints for the efficient use of Web & Hybrid mobile applications using Django and Django Rest Frameworks.

Mid-Senior Full-Stack | Blockchain Developer   Sep 2017 - Jun 2019
True Prodigy

Built user-friendly Node.js, Laravel and Django Back-end for our React / Redux, Vue / Vuex / Vueity Front-end websites.

• Implemented stable React components and stand-alone functions to be added to any future pages.
• Designed CSS templates for use in all pages on the website working with CSS background, positioning, text, border, margin, padding, and table.
• Developed user interfaces by using ReactJS, Flux for SPA development.
• Used Web services (SOAP and RESTful) for transmission of large blocks of XML.JSON.
• Used OOP concepts to develop UI components that could be reused across the Web Application.
• Used JIRA as the bug tracking system to track and maintain the history of bugs/issues on an everyday basis.
• Integrated third-party APIs, Twilio, Facebook, Spotify, Twitter, etc.
• Backend frameworks: Node/Express, Django/Flask are widely used

Skillful Intern | Junior Developer   May 2016 - Aug 2017
Transport of NSW

Implemented several Figma designs to pixel-perfect, responsive React Front-End UI. Built reusable React.js, Vue.js components with high-quality, optimized code and best practices. Collaborated with back-end developers and data scientists to determine the best UI/UX.
Implemented various bug fixes in existing codebases.

• Produced content pages with CSS3 layout and style markup presentations and also used JS methods and properties.
• Extensive experience using Bootstrap for layout.
• Built pixel-perfect and responsive pages from the designs.
• Updated the website from time to time for special Requirements.
• Wrote the effective JavaScript codes to improve performance.

Education

Bachelor of Computer Science (BCompSc)   2013 - 2016
National University Lviv Polytechnic

In addition to my rich skill sets, my courses at this prestigious university have given me a solid foundation as a senior developer.

I have specialized in Software Industry, Emerging Techs, and some main courses in Algorithms / Data structures and Full-stack tech stacks.

Skills

React / Redux

Angular

Vue.js / VueX, Vuetify

Express

GraphQL

Laravel

CodeIgniter

Django / Flask

Python

Java

Ruby on Rails

ASP.NET

CMS

Flutter

React Native

Swift

Android

Gatsby

DevOps

Blockchain

Next.js / Nuxt.js

Scraping
